

The Missouri Water Environment Association is committed to creating a diverse environment and is proud to be an equal opportunity association for all with a voice supporting the protection and enhancement of quality in all things water.

We celebrate the diverse community different water professionals cultivate and we stand in complete support of the Water Environment Federation in their statement:

At the Water Environment Federation (WEF), our vision is to create a community of empowered professionals creating a healthy global water environment. A necessary component to achieving that vision is ensuring that every individual within the communities where we live, work, and serve is treated in an inclusive and equitable manner.

Together in unity we make a difference.
